Dear Mr. Wood,

On behalf of World Wide Movers, Inc. I extend a sincere thank you for redesigning and maintaining our Company websites to include Alaska, Washington State, and Hawaii. We are receiving many compliments on how the new design is "clean and easy to read and follow".

We have found that, our new site functions better with search engines that have improved our site ranking and traffic.

And, with your assistance in monitoring our site to ensure search engine optimization, our once 2 to 6 hits per week has exploded to 6 to 10 hits daily.

Our Company President is impressed to the point that he has chosen to discontinue our hard copy Yellow Page ads which we had depended on since 1963.

We credit our website success to you and your technicians who listened to what we wanted, drew up an economical site plan, and presented us with new process to ensure maximum Sales. We look forward to a long and profitable business relationship with ITEC.

Sincerely,

Frank Sears
